

# RAMAR TRANSPORTATION, INC. (RRXI)

One operator for arms, explosives, high-security supply chains, and Atlantic Coast dangerous goods logistics.

THE ATLANTIC COAST LEADER IN DANGEROUS GOODS SINCE 1992

CAGE: 6JST0

USDOT: 1141064

MC: 300208

UIE: H9NGPVEK4S25

Office: (910) 763-7237

**Integrated dangerous goods logistics.** Ramar combines port drayage, dangerous goods transload, secure holding, long-haul hazmat, Fire Marshal escort coordination, ammo-grade container support, and licensed brokerage under one USDOT, one safety record, and one accountable operator.

## CORE CAPABILITIES

- Integrated port drayage across Wilmington, Charleston, Savannah, Norfolk, Baltimore, Philadelphia, Jacksonville, Brunswick, Morehead City, and New York/New Jersey.
- Dangerous Goods / Class 1 transload, stuffing, staging, and regulated handling procedures for port-side and facility-side movement.
- OTR high-security hazmat transportation for ammunition, explosives, sensitive freight, DOD cargo, and commercial Class 1 materials.
- Secure in-transit holding for vessel delays, terminal congestion, schedule recovery, regulatory holds, and chain-of-custody protection.
- Ammunition-grade container sourcing, block-and-brace procedures, securement support, and export preparation.
- Wilmington Fire Marshal escort coordination for permitted dangerous goods drayage to and from the Port of Wilmington.
- Licensed brokerage support when project scope requires capacity beyond dedicated assets while the customer relationship stays with Ramar.

## FEDERAL / COMPLIANCE PROFILE

- Service-Disabled Veteran-Owned Small Business (SDVOSB).
- DOD-approved Class 1 / AA&E; carrier.
- Active interstate carrier and brokerage authority.
- Hazardous materials certified and insured.
- Facility and staff model built around audit-ready documentation and chain-of-custody control.

## DIFFERENTIATORS

- One phone call instead of seven vendors - fewer handoffs, fewer delays, fewer documentation gaps.
- One USDOT, one safety record, one operator from drayage to delivery.
- Leland, NC location seven miles from the Port of Wilmington and adjacent to MOTSU operating corridors.
- Dedicated dangerous goods infrastructure for staging, transload, secure holding, and schedule recovery.
- Veteran-led, mission-first execution model built for regulated freight, defense manufacturers, and Class 1 shippers.

## INDUSTRIES SERVED

- DOD and defense manufacturers
- Ammunition and explosives producers
- Freight forwarders and project cargo operators
- Mining, energy, and blasting operations
- Commercial hazmat, pyrotechnics, and sporting ammunition distributors
